## Jessica Alba's Facialist On the Secrets to Glowing Red Carpet Skin

**A**s Hollywood's A-listers gear up for another award season, including the Emmys tonight, it's no secret that it takes a village—a.k.a the ultimate glam team—to get that luminous, Hollywood glow. And thanks to Shani Darden, facialist to the stars like **Jessica Alba, Kim Kardashian, and Rosie Huntington-Whiteley**, she knows just the trick.

**What are the biggest skin issues you deal with before a red carpet? How do you resolve them?**

The biggest issue I deal with before a red carpet event is dull skin. I use a light chemical exfoliant to remove dead cells from the skin's surface to give clients an amazing glow.

**What are your go-to products?**

I love products packed with hyaluronic acid for the day of an event. **iS CLINICAL® HYDRA-COOL® SERUM** helps plump the skin.
