LEADERS OF THE PACK

Vitamin C

THE DETAILS An essential vitamin for your body, topical versions are one of the most effective antioxidants on the market.

THE SUPERPOWER Along with protecting your skin from everything the environment throws at it (thereby preventing future damage), Vitamin C is also prized for its ability to even out skin tone and minimize the look of fine lines and wrinkles you already have.

THE FINE PRINT Any type of Vitamin C will protect skin, but if you want added anti-aging benefits, look for L-ascorbic Acid on the ingredients label.
